Voyage Nickel Cordless Table Lamp

The Voyage Nickel Cordless Table Lamp is a luminous art-glass creation made of layers of glass: first blue is scooped up and blown, then amber is added to the mix, and then clear forms the top layer and realizes the beautiful orb shape. The layering of the first two creates a green effervescence in its centre. The portable lamp with its rechargeable bulb configuration is topped with a fabric shade that sits atop polished nickel hardware. Each of the lamps, which look like elegant perfume bottles, will be slightly different because they are mouthblown. Available: September. COMING SOON
