## PRODUCT DETAILS

As lovely as a dangling blossom that calls to mind a balmy evening, the Midsummer Pendant blooms with artistry. A steel frame that tapers from a clean-lined rod to thin tendrils as it graduates toward the bottom dangles curved petals made of recycled glass. The green and amber pieces retain the original colors of the beverage bottles from which they were taken. Because this fixture is artisanal, the configuration of the glass colors will vary slightly, which makes each green and gold pendant unique.
